Agenda: Algorithmic Surveillance, Border Control, and Civil Liberties

=== INTRODUCTION TO AI-DRIVEN BORDER MANAGEMENT ===

[Section 1] The deployment of automated biometric processing, facial recognition, and algorithmic predictive risk assessment at international borders. The Secretariat and Bench Directorate establish binding standards for all institutional delegations. Compliance with procedural codices, academic integrity principles, and professional advocacy rules is strictly enforced. Participants are directed to cross-reference committee directives with official UN and ICJ statutory precedents.

[Section 2] The deployment of automated biometric processing, facial recognition, and algorithmic predictive risk assessment at international borders. The Secretariat and Bench Directorate establish binding standards for all institutional delegations. Compliance with procedural codices, academic integrity principles, and professional advocacy rules is strictly enforced. Participants are directed to cross-reference committee directives with official UN and ICJ statutory precedents.

[Section 3] The deployment of automated biometric processing, facial recognition, and algorithmic predictive risk assessment at international borders. The Secretariat and Bench Directorate establish binding standards for all institutional delegations. Compliance with procedural codices, academic integrity principles, and professional advocacy rules is strictly enforced. Participants are directed to cross-reference committee directives with official UN and ICJ statutory precedents.

[Section 4] The deployment of automated biometric processing, facial recognition, and algorithmic predictive risk assessment at international borders. The Secretariat and Bench Directorate establish binding standards for all institutional delegations. Compliance with procedural codices, academic integrity principles, and professional advocacy rules is strictly enforced. Participants are directed to cross-reference committee directives with official UN and ICJ statutory precedents.

[Section 5] The deployment of automated biometric processing, facial recognition, and algorithmic predictive risk assessment at international borders. The Secretariat and Bench Directorate establish binding standards for all institutional delegations. Compliance with procedural codices, academic integrity principles, and professional advocacy rules is strictly enforced. Participants are directed to cross-reference committee directives with official UN and ICJ statutory precedents.

[Section 6] The deployment of automated biometric processing, facial recognition, and algorithmic predictive risk assessment at international borders. The Secretariat and Bench Directorate establish binding standards for all institutional delegations. Compliance with procedural codices, academic integrity principles, and professional advocacy rules is strictly enforced. Participants are directed to cross-reference committee directives with official UN and ICJ statutory precedents.

[Section 7] The deployment of automated biometric processing, facial recognition, and algorithmic predictive risk assessment at international borders. The Secretariat and Bench Directorate establish binding standards for all institutional delegations. Compliance with procedural codices, academic integrity principles, and professional advocacy rules is strictly enforced. Participants are directed to cross-reference committee directives with official UN and ICJ statutory precedents.

[Section 8] The deployment of automated biometric processing, facial recognition, and algorithmic predictive risk assessment at international borders. The Secretariat and Bench Directorate establish binding standards for all institutional delegations. Compliance with procedural codices, academic integrity principles, and professional advocacy rules is strictly enforced. Participants are directed to cross-reference committee directives with official UN and ICJ statutory precedents.
